Aim

To improve service continuity and patient experience.

Benefits

Improves resource availability in rural and remote areas.

Background

Emerald Hospital was fully dependant of locum staff between 2000 and 2012, with frequent whole of service failures.

Evaluation and Results

The rural generalist program started in 2013 in Emerald Hospital with 2 trainees appointed. It has now appointed Senior Medical Officers (SMO's) including 5 Rural Generalists who have completed their Fellowship of the Australian College of Rural and Remote Medicine (FACRRM) specialty and high staff engagement rates and morale leading to positive patient feedback.

Lessons Learnt

The Rural Generalists Program has been a huge success for recruiting and retaining SMO's in Central Queensland.
